SUMMARY

Information Technology student at the University of Professional Studies, Accra (UPSA), with hands-on experience in software development, backend development training, client support, and business operations. Skilled in Python, JavaScript, React, Node.js, Express.js, and relational databases including MySQL and PostgreSQL. Developed and deployed a full-stack event management platform independently and gained practical experience working with clients, coordinating operations, preparing documents, and managing communications. Seeking an IT internship opportunity to apply technical skills, gain industry experience, and continue developing as a software professional.

PROFESSIONAL EXPERIENCE

Operations & Client Support Assistant, Carpe Accounting Solutions Hub Aug 2026 - Present

- Communicate with clients and provide information and guidance on requirements for business registration.
- Assist clients throughout the initial business registration process and coordinate with relevant staff handling registration and GRA-related processes.
- Coordinate certificate delivery arrangements for clients.
- Manage client messages and respond to enquiries professionally.
- Coordinate communication between clients and staff to support smooth service delivery.
- Prepare documents and reports for operational activities.
- Support day-to-day administrative and operational tasks.

PROJECTS

EventHub: Full-Stack Event Management Platform

Solo Project | React, Tailwind CSS, Node.js, Express.js, PostgreSQL

- Developed a full-stack platform that allows users to discover events, register for events, save events to favorites, and receive event tickets.
- Implemented event registration and ticket-number generation with email confirmation functionality.
- Built the frontend using React and Tailwind CSS and developed the backend using Node.js and Express.js.
- Designed and connected PostgreSQL database tables to support users, events, and registrations.
- Deployed the frontend on Netlify and backend on Render.
- Conducted user testing to identify and resolve functionality issues.
- Gained practical experience troubleshooting backend database relationships and API functionality.

TECHNICAL SKILLS

Programming: Python, C++, JavaScript

Frontend: React, Tailwind CSS

Backend: Node.js, Express.js

Databases: MySQL, PostgreSQL

Tools & Platforms: GitHub, VS Code, Postman, Ubuntu

Deployment: Netlify, Render
